For NGOs

For NGOs

We maximize programmatic impact, translating resources directly into mission fulfillment.

For Governmental Agencies

For Governmental Agencies

We strengthen your capacity to attract investment and execute projects in the public interest.

Bridging Crisis and Resilience: Dieng Consultancy's Integrated Humanitarian Model

Dieng Consultancy expands its service model to address humanitarian needs in Senegal caused by conflict and climate shocks. By launching a dedicated 'Humanitarian & Crisis Response' pillar, the firm combines medical and risk management expertise with ethical industrial growth to foster long-term resilience for internally displaced persons (IDPs).

The 4-Phase Humanitarian Lifecycle

Phase 1: Setup & Training

Equipping specialized teams with resilience and leadership training for crisis response.

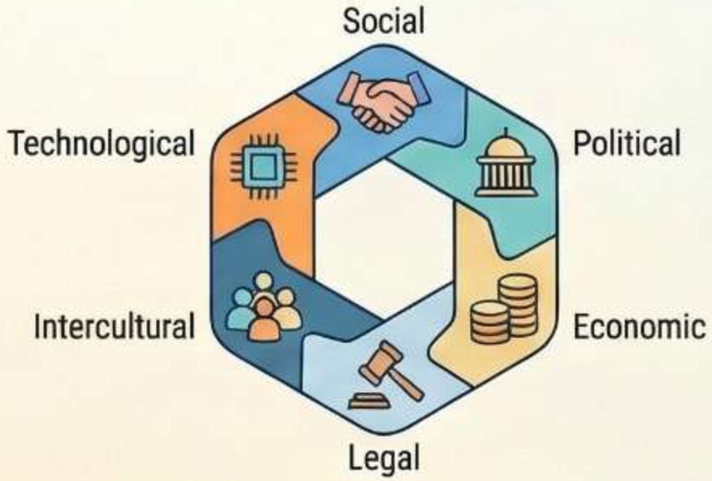
Phases 2 & 3: Settlement & Holistic Care

Relocating vulnerable groups to equipped sites and providing health and psychosocial support.

Phase 4: Evaluation & Transition

Tracking impact via centralized data to facilitate donor reporting and sustainable transitions.

Strategic Service Integration

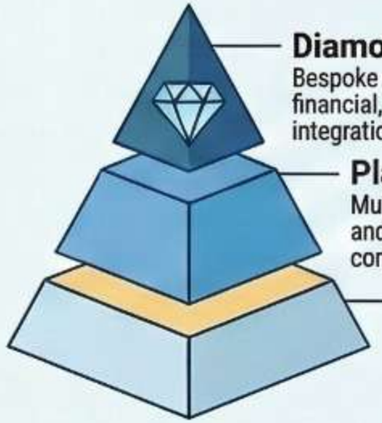


The SPELIT Diagnostic Framework

Analyzing social, political, economic, legal, intercultural, and technological factors for program design.

Industrial-Humanitarian Synergy

Linking land acquisition and plant setup with ethical labor and child protection.



Diamond
Bespoke response including legal, financial, policy support, and industrial integration.

Platinum
Multi-region program management and advanced analytics for complex scenarios.

Silver & Gold
Rapid needs mapping, crisis assessment, and medium-scale field monitoring.

Multi-Tiered Response Model

Offering four service levels from rapid mapping to bespoke, multi-sectoral crisis management.

Contextually Intelligent Solutions: The Dieng GAA Strategic Framework

The Three Operational Umbrellas

Private & Corporate Sector

Focuses on program management, workforce optimization, change management, and date-driven compliance to maintain competitive advantage.

Non-Governmental Organizations (NGOs)

Prioritizes grant management, operational efficiency, and reporting to ensure resources translate directly into sustainable community benefits.

Governmental Agencies

Specialized in Foreign Direct Investment (FCI), policy development, regulatory risk management, and transparent contract negetiation.

Extended Strategic Partnerships

Through MOUs with law firms and financial specialists. Dieng provides subcontracted due diligence, legal counsel, and financial auditing.

The SPELIT Diagnostic Engine

S-P-E: Social, Political, Economic

Analyzes workforce demographics/culture (Social), government stability/policy shifts (Political), and market conditions/funding (Economic).

L-I-T: Legal, Intercultural, Technological

Evaluates regulatory compliance (Legal), cross-cultural dynamics (Intercultural), and digital transformation readiness (Technological).

Holistic Environmental Scanning:

The SPELIT model is a 360 degree diagnostic tool used to assess a client a wearning environment across six critical dimensions.

L-I-T: Legal, Intercultural, Technological

Evaluates regulatory compliance (Legal), cross-cultural dynamics (Intercultural), and digital transformation readiness (Technological).

Scalable Service Tiers

Platinum (Large) & Diamond (Custom)

Platinum delivers date-driven solutions for complex operations; Diamond offers fully customized strategies for unique organizational objectives.

Silver (Small) & Gold (Medium)

Silver offers standardized foundational needs for emerging organizations, while Gold provides enhanced capabilities for established entities.

The Implementation Workflow

1. **Internal Alignment & Tools**
   Forging partner MOUs and developing SPELIT based assessment wroplasss and SOPs.
2. **Onboarding & Segmentation**
   Mandatory SPELIT diagnostic at the tsort of avsec engagement to determine the appreerlate sector umbrelle and service tier.
3. **Customized Delivery & Monitoring**
   Executing core services with integratoe rlos mitigation and establishing regular SPELIT: informed reporting cycles.
4. **Continuous Improvement**
   Refining tools based on amerging trends and client feedback to eoeure long-verm organizational resilience.

Contextual Intelligence

Every solution is grounded in deep awareness of the social, political, and technological environment.

Measurable Impact

The framework ensures clear service differentiation, scalable delivery, and reduced overhead through strategic partnerships.
